Excerpts From Rule 301 (Permit Fees)

All permits to operate (including temporary permits to operate pursuant to Rule 202) for equipment on the same premises shall be renewed on the annual renewal date set by the Executive Office of the SCAQMD. The same annual renewal date shall apply from one change of ownership to another. At least 30 days before the annual renewal date, owner/operator of equipment under permit will be notified by mail of the amount to be paid and the due date. The annual operating permit fee (including temporary annual permit fee) shall be in the amount described in Rule 301(d)(2). If the annual operating permit fee is not paid within 30 days after the due date, the application or permit will expire and no longer be valid and the owner/operator will be notified by mail of the expiration and the consequences of operating equipment without a valid permit as required by Rule 203 (Permit to Operate);

An application or a permit to operate which has expired due to non-payment of fees may be reinstated by submitting a Request to Reinstate the Application or Permit to Operate accompanied by a 50% reinstatement fee as described in subdivision (g) of Rule 301 and payment in full of the amount of fees due at the time the Application or Permit to Operate expired. **Such request and payment of such fees for an application or Permit to Operate which has expired must be made within six months of the date of expiration. If the period of expiration has exceeded six months or the affected equipment has been altered, anew application will be required.** The reinstatement fee shall not exceed \$126.71 per application or permit.

Operation of equipment without a permit subjects owner or operator to misdemeanor penalties for each day of operation.
